EUFMC Ranks High on the List for Fleets and Manufacturers

Interest in [EUFMC](#) 2022 is growing significantly among fleets operating utility equipment and the industry's leading manufacturers and suppliers of vehicles, equipment, products and services for their operations. The annual event attended by fleet representatives from across the U.S. and Canada will be held June 5-8, 2022 at the Williamsburg Lodge and Conference Center in Williamsburg, Virginia.

Driving Safety, Sustainability & Technical Expertise will be the focus of the EUFMC [General Session](#), a two-day comprehensive educational program featuring presentations by industry experts, manufacturers and fleets.

EUFMC 2022 will cover:

- Fleet Electrification, Charging Infrastructure Planning, and Sustainability Goals
- Fleet Safety topics including new technologies and metrics
- Sessions focused on using telematics and other fleet data for replacement planning
- Vehicle Specifications and Sourcing practices
- Maintenance best practices
- Updates on Regulatory and Legal issues
- And more!

[EUFMC Attendees](#), including more than 125 fleet professionals and over 350 representatives from 100 manufacturers, also gain knowledge through networking opportunities. Roundtable discussions provide the opportunity to exchange information and discuss mutual challenges, find solutions and develop best practices. EUFMC also includes a Drive-Through utility equipment demonstration and an Equipment Show with more than 60 displays.

“The educational sessions provide me with the opportunity to get a sense of what other managers are dealing with,” said Peter Michaud, EUFMC Director and Fleet Manager at NB Power. “There’s no sense in

reinventing the wheel. They will have solutions that work for them that may work for you. It's always nice to network with other fleet managers at EUFMC because they can help you with situations that you may encounter down the road."

The EUFMC Board of Directors has set attendance fees for EUFMC 2022 and the conference will accept payments in 2021 for company budgeting purposes. Fees for fleet professionals are refundable. Supplier fees are refundable as noted in the [Conference Rules and Regulations](#).
